

URGENT & PARAMOUNT!

Dear Kamala Harris,
U.S. Senator for California,
future Madame Vice President of the United States,

we would like ask you, to take a few minutes of your precious time, and look at the idea of a “New world order - Balanced Coexistism with its base Personal Biodiversity Unit PBU.” A month ago, we launched it in Mekelle, Tigray, on www.earthlikeme.org. We are aware that the proposals in NO WE WON’T manifesto are still in a raw state and need cross-fields scientific support. But with your power and wisdom, we are positive that you can lead the world on this path, and nations will follow all over the world. We believe in this idea as opportunity for humanity to save itself and planet, or at least take a new post Covid-19 historical path on Earth.

Thank you.
